★ National Warehousing

Virginia Abrasives manufactures and distributes a full line of flooring sandpaper products, bonded abrasive cutting and grinding discs, diamond abrasive tools, non-woven abrasive pads, and other related products to the construction products industry — rental equipment dealers, professional wood and concrete floor surfacing professionals, and industrial outlets.

Located in Petersburg, Virginia, since 1971, Virginia Abrasives is one of only a few actual manufacturers of coated abrasives (sandpaper) in the United States. We also convert these “jumbo” sandpaper rolls into smaller rolls, sheets, discs, and belts.

In 2005, Virginia Abrasives opened its West Coast distribution center in Simi Valley, California. This location, along with our Petersburg, Virginia, manufacturing and distribution facility, allows Virginia Abrasives to deliver products to nearly all of our customers nationwide in 1 to 3 business days.
