Need a reason to choose Overland? We'll give you 10.

- 1. Easy to operate** – So easy to use, even a child can safely operate the cart. Plus it saves back and muscle strain.
- 2. Made in the USA** – Quality you can feel. Engineered, manufactured and assembled in Archbold, OH.
- 3. All electric power** – Zero emissions, zero fumes, and environmentally friendly.
- 4. Minimal Maintenance** – No oil filters, air filters, or gas to add. Just remember to plug it in.
- 5. Long Battery Life** – Operate the cart 6-8 hours on a single charge.
- 6. Brute Strength** – Load the cart with up to 750 pounds.
- 7. Lightweight/Easy Transport** - Most carts weigh under 200 pounds which allows two people to easily lift and move the cart, as needed. The carts fits in the back of a pickup for easy transport.
- 8. Huge Capacities** – Hopper sizes range from 6 cu. ft. to 20 cu. ft.. Our most popular size is 10 cu. ft. which is double a traditional wheelbarrow.
- 9. Customer Service** – If there is ever an issue or question, our support team in Archbold, OH will get back to you in a professional and timely fashion.
- 10. Safety Features** - Numerous safety features have been implemented to ensure that the user of the cart is always protected. AutoLock, HillSense, and SmoothStart are just a couple features that come standard on every cart.

Overland Carts Warranty

- 1 year – Powertrain and Electronics
- 3 year – Chassis
- Warranty starts from the invoiced date of the cart
- Limited to manufacturing defects

Satisfaction Guaranteed

Granite Industries is committed to making sure each Overland Cart meets your expectations. We are confident enough to offer a 15 day money back guarantee. Use the cart and see how much easier the cart makes your projects. If you're not satisfied, simply contact Granite Industries at 877-447-2648 for a return authorization and details.

Orders and quote requests can be emailed to support@graniteind.com or faxed to 419-445-3304

Built with you in mind.

Our carts come fully assembled

All Overland Carts come fully assembled, fully charged and ready to use. All you have to do is open the crate and drive the cart away.

We designed our carts to be simple to operate:

- To turn on, pull the red On/Off switch out towards you.
- Toggle the black switch for forward and reverse.
- Grasp and twist the throttle.
- To turn the cart off, simply push the red button in.

Safety Features

- **Emergency Stop** – The red E-Stop button allows the user to immediately stop the progress of the cart.
- **AutoLock** – Automatically locks the wheels when the throttle is not being applied. This feature prevents the cart from rolling away from the user and also provides easy loading and unloading on inclines.
- **HillSense** – Allows the cart to be used safely on inclines and declines. The cart will travel at the speed set by the user, not by the incline or decline.
- **SmoothStart** – On acceleration, power is applied to the drive tires in a controlled manner ensuring a smooth start each time.
- **Four Wheel Design** – All Overland Carts have at least four wheels to provide maximum stability.

Free Wheel Mode

If the battery runs out, the cart can be manually pushed the rest of the way home.

They've been tested (again and again)

The standard 21 amp-hr rechargeable battery packs have been extensively tested. We are confident to rate the batteries with a 6-8 hour real world capacity. The cart was tested with three different weights (0 lbs, 300 lbs, 600 lbs) and driven on both grass and pavement.

Quick Questions

How Do I Dump the Cart? Overland Carts are very easy to dump. Simply pull out the spring loaded G-Pin on the side of the cart and tip the bucket forward. Be sure to lock it back in place after the hopper has been dumped.

When and how do I charge my batteries? For the best battery life, charge the cart after extended use or at the end of the work day. It's preferable to let the batteries charge overnight by plugging the cart into a 110V outlet. Don't worry, we added a battery management system that prevents overcharging.
