

2016 Catalog

Determination and a reliable partner are the keys to success.

Self confidence, good training and a clear goal - these are the prerequisites for success and achieving goals. In our complex world, it is difficult to accomplish goals alone. Partnership is, more than ever, the key to success. With trust in the capabilities of others and quality equipment, you can be confident in your partnerships with those who can help you reach your goals productively and safely.

LIGHTNING BDP 50/2000 W

Easy to use and easy to own.

We didn't gloss over the details with our new Lightning BDP 50/2000 W. This new battery burnisher features everything you want including an on-board charger, variable speed control, dust control filter and automatic pad control adjustment. All of these great features come in a robust package with a focused lower total cost of ownership. Our pad control technology automatically adjusts the burnishing head to changing floor conditions, dramatically improving performance and life span of burnishing pads while producing consistent single-pass results. At only 67 dBA this quiet machine is well suited for daytime use. Shine your floors with the Lightning BDP 50/2000 W and get more value for your money.

Lightning BDP 50/2000 W

- Dust control filter system
- Variable speed control
- Durable roto-molded body

COMMODORE 20

The most value per gallon.

The Commodore 20 has a low profile and compact design, allowing for exceptional maneuverability in small areas. Its vacuum shoe provides superior solution recovery and fast dry times.

Commodore 20

- Easy-fill solution tank
- Self-propelled design for consistent operator productivity
- Ergonomic handle

ICAPSOL MINI DELUXE

A fast dry with less effort.

Clean and freshen up carpet surfaces in a fraction of the time with the iCapsol Mini and iCapsol Mini Deluxe. These products use a low moisture encapsulation process to remove soil while improving the overall appearance of the carpet. In approximately 20 minutes, surfaces are dry and ready for foot traffic.

iCapsol Mini Deluxe

- No tool brush removal
- Locks upright in storage position
- Two non-marking grey wheels

PIVOT

Taking on challenging floor applications.

The Pivot floor machine uses cylindrical brushes for aggressive cleaning on porous or uneven floors. Its superior performance with 60 pounds of downward pressure delivers 4 - 6 times the contact pressure of a disc unit.

Pivot

- 2.5 gallon solution tank
- No tool brush removal
- Wheels attach easily for transport and store on handle during cleaning

BOLT

Strong and solid operation.

The Bolt floor machine is a high quality, durable unit that offers power and versatility for scrubbing and stripping. It features an adjustable handle to accommodate various user heights and five inch non-marking wheels to allow easy transportation. This machine is available in single-speed or dual-speed.

Bolt

- 17" and 20" sizes available
- Cord strain relief
- New, stronger housing for trouble-free operation

CRICKET AUTOMOP

Do more with less.

The Cricket AutoMop fills the need in between the mop and an autoscrubber in regards to function, capability and price. It can be utilized for daily hard floor cleaning and regular scrubbing, keeping floors clean and dry. Without any batteries or power source needed, this is a true green solution.

Cricket AutoMop

- Human operated mechanical pump
- Fold-over handle for easy storage
- Flip-up squeegee

SABER CUTTER 26

Automatic scrubbing with innovative systems.

To help you choose the most productive walk-behind for your facility, the Saber Cutter can be tailored to meet a variety of cleaning needs. The Saber Cutter series can be ordered with different cleaning widths, battery systems, scrub head lift systems and solution tank capacities.

Saber Cutter 26

- Sleek, functional design improves sightlines for safer operation
- Simple, intuitive controls
- Aqua-Mizer™ technology

CHARIOT 2 ISCRUB 20

Productive, maneuverable and quiet.

Scrub 50% more area than a traditional walk-behind scrubber with the Chariot 2 iScrub 20. The design gives the operator unparalleled visibility allowing for safe operation in tight, congested areas, making it the perfect machine for daytime cleaning.

Chariot 2 iScrub 20

- Extremely maneuverable with 51" turning radius
- 100% water pick-up, even in turns
- Easy access to batteries

CHARIOT 2 ISCRUB 22 SP

Pre-sweeping, scrubbing and vacuuming in one pass.

The Chariot 2 iScrub 22 SP is designed with two 22" counter-rotating brushes for cleaning the most difficult floors. Rotating up to 1500 RPMs, the cylindrical brushes are continuously self-cleaned by centrifugal force, allowing one brush to outlast 50 or more pads. Chemical metering is available.

Chariot 2 iScrub 22 SP

- Ergonomically designed leg panel for increased operator comfort
- External fill-port provides easy access to fill solution and water
- Chemical metering available

CHARIOT 3 ISCRUB 26 SP

Cylindrical technology for all your cleaning needs.

Get nine times the downward pressure than a traditional disc or pad floor scrubber with the Chariot 3 iScrub 26 SP. Its integrated wet pre-sweep and debris hopper can save up to 40% of your overall cleaning time and labor costs.

Chariot 3 iScrub 26 SP

- Cylindrical scrubbing technology is perfect for grouted, uneven or porous surfaces
- Six cleaning modes including EcoMode and EcoMode Plus
- Optional battery exchange system

SENSOR S

Reliability with the highest value.

The Sensor S vacuums have large, 1200 watt motors that pull more dirt from the carpet than other vacuums. With an ultra-light handle weight, the operator's comfort and productivity are increased. This model is available in 12 and 15 inch cleaning widths.

Sensor S

- Pile height brush adjustment
- Indicator lights for bag full, clog, brush height and brush jam
- Two models: Sensor S 12 and Sensor S 15

VERSAMATIC PLUS

Refining every detail.

The Versamatic Plus has all of the exceptional benefits of the Versamatic with additional features to give you the cleanest carpets. It is quiet enough to clean during the day but strong enough to pick up more dirt in one pass, increasing operator productivity.

Versamatic Plus

- Flat-to-floor hinge
- Brush motor speed governor
- Worn brush and bag full indicator lights

NUWAVE

A consistent clean for your facility.

The NuWave's dual counter-rotating brushes agitate, lift and clean both sides of the carpet nap, removing 50% more soil in one pass. The floating brush deck maintains constant contact with the carpet and requires no operator adjustments.

NuWave

- Handle folds over bag housing for compact storage
- Easy release cord wrap
- Easy access to tool port and bag removal

Blades for low-speed machines (Storm or Bolt 17)

Part No.	Description	List Price
8.637-818.0	10 Blade Kit, Mastic Tool, 17", 25 Grit	\$385.26
8.637-812.0	28 Blade Kit, Concrete Prep Plus, 17", 25 Grit, Counter-Clockwise	\$672.12
8.637-813.0	28 Blade Kit, Concrete Prep Plus, 17", 100 Grit Counter-Clockwise	\$672.12

TREADWAY

Fast and thorough cleaning results.

With two counter-rotating brushes, a centering skid and a compact, maneuverable design, the Treadway escalator cleaner is perfect for cleaning most types of escalators. Its tank-in-tank design is easy to maintain and the handle folds down for transport making this machine perfect for your facility.

Treadway

- Four hoses ensure maximum suction performance
- Operated by foot pedal
- Comfortable, ergonomic handle for operator comfort

ZEPHYR

Continuous operation for a professional clean.

With a steam temperature up to 248°, the Zephyr sanitizes surfaces and eliminates bed bugs and foul odors. The two-tank system helps shorten heating times and allows for nonstop cleaning due to the unit's ability to be refilled at any time.

Zephyr

- Function indicator lights
- Adjustable water volume and continuous fill port
- Standard tools include: connecting hose, 2 steam wands, floor nozzle, hand tool, round brush, power nozzle

FAST FACTS

Importance of proper cleaning

Keeping soils from entering the facility is the most critical and most overlooked component of floor maintenance. Highly efficient and effective floor care programs take an 'outside-in' approach, beginning where the soils originate - outside. Exterior paved areas like parking garages, parking lots and walkways should be addressed before soils even enter the facility. Preventative cleaning uses less labor, less chemical, and lower overall cleaning cost.

Preventative (P): Stopping the soils from entering the facility through removal or containment.

Daily (D): Removing soils daily to minimize their damage to carpet and hard floor finish.

Interim (I): Maintaining a high level of appearance with minimal labor, chemical and water.

Restorative (R): Intensive cleaning designed to restore the carpet or finish as close to original as possible.

PREVENTATIVE (P)
