

Make-Up Air

CAMPO Equipment
DF1600

Direct Fired
1.6 MILLION BTU Heater

Profitable Heat Solutions *For The 21st Century.*

Make-Up Air Just Got A Little Hotter!

The Campo DF1600 converts 1,600,000BTU's at nearly 10,000CFM! Campo's unique "Fan First" design eliminates the need for drive belts and other parts known to cause premature failures and unhappy customers. Together with Campo's **Wide-Scope modulation** (from 550,00 to 1,600,000BTU) , you will experience reduced cycle losses, reduced wear and tear on critical components and greater thermal efficiencies! **But, What does that really mean?**

- The DF1600 will be less prone to unplanned shutdowns!
- The D1600 wont blow cold air into the workspace when starved for LP or NG
- The DF1600 is the first heater in the industry that has Campo's 'Power Leveling Box' which ensures proper operating voltage in unstable electrical environments!
- The DF1600 will help your customer 'custom place' the heat, for greater efficiency.
- The DF1600 will increase your PROFITABILITY!

What's in this box? Campo's Power Management System!

The #1 complaint on higher voltage machines are the *wild power fluctuations* on the jobsite, leading to 'down and abused equipment' and frustrated customers. Campo's Power Management System ensures 'level power' coming into the heater, by increasing low incoming voltage and decreasing voltage when high voltage is detected! **#gamechanger**

KEY SPECS

- ✓ 550,000 btu to 1,600,000 btu, Modulating
- ✓ 9,452 cfm Heated Air Output
- ✓ 208 to 240V range
- ✓ 10 Amps (1ph) and 6 amps (3ph)
- ✓ For Use With Metal Ducting
- ✓ Lockable Casters
- ✓ Forklift Pockets
- ✓ Stackable
- ✓ Very Quiet
- ✓ L92", W31.50", H62.5"
- ✓ 1040lbs

FOR USE WITH OR WITHOUT DUCTWORK STATIC PRESSURE IN DUCTWORK IS NOT TO EXCEED 0.35" W.C.
