Trime - Italy

Trime - USA

The Trime Group is a global manufacturer of high quality, industry leading construction equipment products that are designed from the user's perspective. The origins of our company stem back over 50 years. Our ownership is private. We operate out of many different factories located in Northern Italy. Trime is a vertical integrated company including design, metalwork, powder coating, mechanical and electrical assembly and final testing, everything is done internally.

The engineering team is responsible for developing a wide range of innovative, compact and versatile products by applying the latest technologies in the field of energy saving, reduction of exhaust gas and CO2 emissions. We are a proven leader in Clean Energy Products. We use solar ourselves reducing Co2 emissions at our factories.

Our products are geared to be used in all markets including rental, construction sites, entertainment, road work, special events, oil, gas, mining, civil protection, and military use.

Today our product range includes:

- Light Towers (Diesel, Solar, Hybrid, Battery and Electric)
- Fuel Tanks
- Security Towers
- Water Recycling Wash Bays
- Dust Suppression Systems
- Hydraulic Tools
- Pumps
- Manhole Cover Lifters
- Generators (Diesel, Hybrid, Solar)

We are constantly innovating and bringing new products to market daily. We also look at strategic acquisitions of manufacturing firms that enhance and complement our current product line up. Our global distribution network includes company owned offices in North America, Great Britain, The Netherlands, Australia and our corporate headquarters in Italy. Trime has grown to manage a strategic distribution network of sales and service all over the world.

LIGHT TOWERS - Diesel Powered

Kubota or Kohler engine

46 gal. fuel capacity

288 hrs run time

X-SMART (EL1250H)

With thousands sold in the U.S., the EL1250H is our most popular light tower

- Full run time 288 hrs - that's almost a full month of darkness on one tank of fuel! Refuel once a month verses five times a month with metal halide towers. Save on fuel and labor refueling costs!
- 4 high efficiency, no maintenance LED lamps have a 5 year warranty and are easily tilted & rotated by hand
- 44,328 sq ft of illuminated area
- 1000 hour engine service interval
- Galvanized, hydraulically operated vertical mast fully raises in 10 sec. with the push of a button
- Set the timer and go! No need to send labor to start every night - 16 event 7 day digital timer and automatic dusk to dawn operation
- Built for a long life! Rugged 10 gauge steel enclosure and fenders are galvanized and powder coated inside and out

Mast, Dimensions & Weight

Mast Height	26'
Unit Dimensions - Stowed	63" x 56" x 95"
Operating Dimensions	98" x 100" x 315"
Dry Weight	2200
Operating Weight	2522

X-RENT

- 6 x 320W high efficiency LED floodlights are multi-directional adjustable and tiltable
- 58,125 sq ft of illuminated area
- 16 event 7 day digital timer and automatic dusk to dawn operation

Kubota engine

30 gal. fuel capacity

71 hrs run time

Mast, Dimensions & Weight	
Mast Height	28'
Unit Dimensions - Stowed	101" x 54" x 98"
Operating Dimensions	101" x 100" x 335"
Dry Weight	2425
Operating Weight	2635

X-LIGHT

- 4 x 320W high efficiency LED floodlights are multi-directional adjustable and tiltable
- 51,667 sq ft of illuminated area
- 16 event 7 day digital timer and automatic dusk to dawn operation

Kubota engine

52 gal. fuel capacity

310 hrs run time

Mast, Dimensions & Weight

SECURITY TOWERS

TRIME SECURITY TOWER is a TRIME brand with a specific focus on the whole world of security. Thanks to our wide range and our solutions, every surveillance requirement can be solved individually. In this way we are able to supply the customer with specific products according to his requests.

Our security technology enables the control of large areas, both internal and external, such as construction sites, commercial areas, road construction, event sites, car parks, storage areas, critical infrastructures ... and many others.

Our solutions are easy to install, require very little installation time, can be both fixed and mobile and we can provide any type of technology solution, from full battery to solar, plug in and engine versions.

WE CREATE THE HARDWARE ACCORDING TO YOUR REQUESTS AND YOUR NEEDS, NOW JUST APPLY THE SECURITY SYSTEM!

FUEL STORAGE

-  Can be transported full of diesel
-  Stack 2 tanks full of fuel for improved storage
-  Lockable lid to protect contents
-  Fork pockets & lifting eyes for easy maneuverability
-  Galvanized steel and powder coated inside and out
-  Can feed 2 machines at the same time
-  12 volt transfer pump with filter, hose and meter standard
-  Double-walled, 110% containment

DUST SUPPRESSION

TeknoSpray, part of the Trime Group, has developed a wide range of innovative, versatile and compact dust suppression systems. Fully automatic with R.O.T. system standard - Remote control, automatic Oscillation 0-340° and electric Tilting system. Used in mines, quarries, demolition, recycling and odor removal.

COVER LIFTERS

ITALIFTERS

ITALIFTERS was developed for the safe lifting and opening of manholes, through magnetic and mechanical systems all connectable to each other providing the operator with as many solutions as possible for the opening of manholes.

ITALIFTERS stands out for its continuous development, the search for new materials and systems to meet numerous needs for safety, power and reliability in seemingly trivial operations such as the opening of manholes.

Pictured are just some of the many tools produced by ITALIFTERS.

HYDRAULIC TOOLS

DOA

DOA Hydraulic Tools offer solutions for oil, gas, water and sewer applications. Nothing matches the performance of hydraulic tools to cut through rock & concrete or pump a flooded culvert.

These tools derive their energy from compressed oil, with zero tool exhaust. They pack a big punch in a little package. You get an environmentally friendly, long lasting tool with the power for professional size jobs. Our selection of tools include pumps, hydraulic generators and compressors, grinders and disc saws, tools for maintenance underground pipes and power units.

Pictured are just some of the many hydraulics tools manufactured by DOA.
